## About Me

I'm a Data & AI Delivery Consultant at IBM Technology Expert Labs. My previous expertise encompasses support for a cloud-based e-commerce platform with Apache services. Besides, I was supporting infrastructure level of Cloudera, workload management platform and cloud platform for application deployment and management. Now, at IBM I specialize in delivering solution for AI technologies such as Watsonx and Cloud Pak for Data.

## Work Experience

2022-09 - Now

### Work at IBM
